

SAFARI WAX — SAFETY DATA SHEET

Revision Date: 12 May 2026 **Product Code:** WW-550P **Manufacturer:** TAG Rifleworks, LLC
Product Type: Proprietary Natural Wax & Oil Conditioning Compound

1. Identification

- **Product Name:** Safari Wax
- **Product Description:** Proprietary wax-oil conditioning compound for wood, metal, and composite surfaces
- **Recommended Use:** Protective conditioning, moisture resistance, surface enhancement
- **Restrictions:** Not for ingestion; not for cosmetic or medical use
- **Emergency Contact:** TAG Rifleworks, LLC 9562447472
Poison Control Center (U.S.): **1-800-222-1222**

2. Hazard Identification

GHS Classification:

- Skin Irritation — Category 2
- Eye Irritation — Category 2B
- STOT-SE — Category 3 (respiratory)
- Aquatic Chronic — Category 3

Signal Word: WARNING

Hazard Statements:

- Causes skin irritation
- May cause mild eye irritation
- May cause drowsiness or dizziness if heated vapors are inhaled
- Harmful to aquatic life with long-lasting effects

Precautionary Statements:

- Avoid breathing vapors or mists
- Use with adequate ventilation
- Wear nitrile gloves and eye protection
- Avoid release to the environment

3. Composition / Information on Ingredients

This product contains a proprietary blend of microcrystalline waxes, polymer-modified oils, and

low-odor carrier fluids. All components protected under **Trade Secret Claim 55-WW-C.**

Proprietary Component	Disclosure Status
Proprietary Natural Wax System	Trade Secret
Proprietary Polymer-Modified Oil Blend	Trade Secret
Proprietary Low-Odor Carrier Fluid	Trade Secret
Exact composition withheld as a trade secret.	

4. First-Aid Measures

- **Inhalation:** Move to fresh air; monitor for respiratory irritation
- **Skin Contact:** Wash thoroughly with soap and water
- **Eye Contact:** Rinse cautiously with water for several minutes
- **Ingestion:** Rinse mouth; do **not** induce vomiting; seek medical attention if symptoms occur

5. Fire-Fighting Measures

- **Extinguishing Media:** Dry chemical, foam, CO₂
- **Hazards:** Product may burn if heated; fumes may contain carbon oxides
- **Special Notes:** Heated containers may rupture

6. Accidental Release Measures

- Scrape or wipe up excess material
- Clean residue with absorbent material
- Prevent release to drains or soil
- Dispose of contaminated materials properly

7. Handling & Storage

- Keep container tightly closed
- Store below 120°F
- Avoid breathing vapors from heated product
- Do not store near oxidizers or open flame

8. Exposure Controls / PPE

- **Ventilation:** Normal ventilation adequate for ambient-temperature use
- **Respiratory:** Organic vapor protection if heated or aerosolized
- **Skin:** Nitrile gloves

- **Eyes:** Safety glasses or splash goggles

9. Physical & Chemical Properties

- Appearance: Smooth, semi-solid wax compound
- Color: Off-white to pale yellow (proprietary)
- Odor: Mild, low-aromatic
- Flash Point: >150°C (proprietary estimate)
- Melting Range: Proprietary
- Solubility: Insoluble in water

10. Stability & Reactivity

- Stable under normal conditions
- Avoid heat, sparks, oxidizers
- Decomposition may produce carbon oxides and aldehydes

11. Toxicological Information

- Prolonged skin exposure may cause irritation
- Heated vapors may cause dizziness or respiratory irritation
- Low ingestion toxicity but may cause gastrointestinal discomfort

12. Ecological Information

- Harmful to aquatic life with long-lasting effects
- Avoid release to environment

13. Disposal Considerations

- Dispose of in accordance with local regulations
- Do not pour into drains or soil
- Wipe containers clean before recycling

14. Transport Information

- Not regulated as a hazardous material under most transport classifications
- Keep container sealed during transport

15. Regulatory Information

- All components compliant under trade-secret exemption
- SARA 311/312: Acute health hazard

16. Other Information
